Code: [github.com/endreymarcell](https://github.com/endreymarcell)

## Introduction

I am a senior frontend developer. I mostly work with TypeScript-React applications.

I am passionate about delightful user and developer experiences. I have led teams of up to eight developers, and apart from coding I also enjoy explaining concepts, like during presentations or teaching.

I do believe that culture eats strategy for breakfast, and I have a strong preference for working with a team in-office, rather than remotely.

## Professional Experience

### **Wise (March 2022 –)**

- senior frontend developer working with customer support tooling

### **Prezi (Jan 2015 – March 2022)**

- led the team designing and implementing the Prezi Video web app
- led the team designing and implementing web-view based Prezi Video desktop apps
- founded and led the Frontend Workgroup at Prezi
- participated in hiring, led onboarding of junior teammates

## Skills

### **Engineering**

- experienced in modern web technologies and toolchains
- product engineer mindset with a strong focus on delightful user experiences
- keen to improve development experience
- passionate about clean and readable code

### **Leadership**

- led teams of varying sizes (3 to 8 engineers)
- experienced in coordinating across functions and missions
- experienced in interviewing, on-boarding, and mentoring
- affinity for teaching and presenting, received praise for clear explanations

### **Languages**

- English (fluent)
- German (intermediate)

## **Education**

### **Budapest University of Technology and Economics (September 2010 – January 2014)**

BSc, Computer Sciences

### **Eötvös Loránd University (September 2011 – July 2014)**

BA, Liberal Arts

### **University of Karlsruhe, Germany (October 2012 – January 2013)**

BSc, Computer Sciences (one-semester scholarship)

## **Extra Curricular Activities**

### **Teaching and presentations**

- taught beginner programming at universities and for Skool
- voted best teacher of the semester at Metropolitan University in 2017
- presented at multiple company-wide conferences and at VS Code Japan 2021

### **Rubik's cube**

- five-time world champion in blindfolded solving with a total of 15 world records
- currently holding four Hungarian records
